## Nathalie Ludwig Exclusive Interiors launches showroom in Mougins

**M**odem yet timeless – “With a touch of Art Deco...” – is how trilingual interior designer Nathalie Ludwig describes her style. For the last five years, she has been realising dream homes for her clients on the Côte d'Azur and internationally, working to renovate existing properties or collaborating with developers and owners to create an entirely new space. As part of her unique proposition, Nathalie will project management the whole process: an invaluable

service for her many clients who live overseas.

At the beginning of 2018, Nathalie expanded into Mougins with a showroom in which her team can better welcome clients and display a wider range of décor and home accessories.

“In addition to my five-member team of architects and decorators, I now have a structural engineer right here in my office,” adds the interior designer, who lives in Grasse.

In addition to a meeting room, the showroom includes two material zones: one of luxurious fabric samples and the

other for tiles, window and door frames, fittings and light switches (as well as many more fixed pieces).

“In both areas, we can showcase new trends and materials,” she explains. “Through visiting events such as the Maison & Objet in Paris recently, I discover exciting ideas and pieces. In this case, mirrors, antiques and one-off furniture productions!” ▴
