NATHALIE LUDWIG

Exclusive Interiors

Nathalie Ludwig

Creator of sublime interiors

Hugely talented and with a subtle sense of style which is all her own, Nathalie Ludwig is passionate about what she does. She is in love with all that is beautiful, breathing life into rooms and leaving her unique and individual stamp on all the houses she works on.

By Fiona Esther

She draws inspiration from everyday life, from cultural crossovers and trends from yesteryear - then she lets her imagination run wild. And so she dreams up sharply elegant interiors which combine these worlds; playing with volume, form and with both refined and raw materials using light as the key, her designs come to life from the pages of her sketchbook. Her projects live when her creativity meets the clients' wishes (sometimes without them even knowing what they want)... to give real pleasure. Our

eye might then be caught by an art deco touch, we might brush up against cashmere and beautiful silks, when she lets our feelings have free rein.

Creator of a personalised world Saint-Tropez is her natural inspiration which she incorporates into her designs with real finesse. It is there that we find a marriage of original beauty which is restrained in some places and elaborate in others and somewhere where you feel... oh so good. Nathalie Ludwig, Welcome home
